

## DiskStation DS115j

Synology® DiskStation DS115j is a compact 1-bay NAS server specifically designed for home and personal users to effortlessly share storage across devices. Featuring a simple, sleek design and low power consumption, DS115j fits elegantly into your living room and study. Running on Synology DiskStation Manager, DS115j takes full advantage of the rich features Synology has to offer.

### Highlights

- **Smart, Cool, and Quiet**
- **Floating-Point Unit Boosting CPU Efficiency**
- **Only 3.85 Watts in HDD Hibernation**
- **Over 102.89 MB/s Reading, 61.59 MB/s Writing<sup>1</sup>**
- **Runs on Synology DiskStation Manager (DSM)**

### Sheer Simplicity

Rich with network storage features, Synology DS115j serves not only as your private cloud to access anywhere, but also as a backup device, DLNA music and video library, online photo album, local copy of your public cloud, and so much more to fulfill your daily data management needs. DS115j also cleverly manages your download tasks 24/7. In addition to its versatility, DS115j is also budget-friendly and energy-efficient.

With the built-in floating-point unit, DS115j transcodes audio tracks into MP3 format on demand to reduce streaming bandwidth and speeds up thumbnail generation to yield a refreshing photo viewing experience. DS115j reads over 102.89 MB/sec and writes over 61.59 MB/sec in a Windows® environment.

Tailor-made for the home environment, DS115j silently operates on very low wattage, making it a pleasant addition to your home as a perfect desktop companion.

### Budget-friendly Surveillance & Backup Server

DS115j serves as a compact NAS server to leverage Synology **Surveillance Station**. A full-featured NVR that comes with two free IP camera licenses and supports up to five cameras, DS115j is an ideal surveillance solution for home and SOHO use.

DS115j can also function as a centralized backup target to consolidate fragmented and unstructured data across a network. Windows PC users can back up their data to DS115j with Windows Backup and a variety of third-party software, while Mac OS X® users can enjoy native Apple® Time Machine® integration. Synology users can adopt DS115j as a network backup destination for another Synology NAS with the built-in **Backup & Replication** package.

### Full Multimedia Features

With DS115j you have many tools to easily manage your multimedia. Photo Station's intuitive design allows you to effortlessly organize photos into customized categories, smart albums, and blog posts; as well as link them to social networking websites like Facebook, Twitter, Flickr, and Weibo with just a few clicks. Audio Station comes with a built-in lyrics plugin, Internet radio, and support for DLNA®, AirPlay®, and Bluetooth speakers for quality playback. With Video Station, you can watch movies and TV shows online and record your favorite programs with a DVB-T, DVB-S or DTMB tuner.

### Wireless Multimedia Streaming

DS115j turns your living room into a multimedia entertainment center.

## Windows + Mac + Linux Cross Platform File Sharing

Synology DS115j offers comprehensive network protocol support, assuring seamless file sharing across Windows, Mac®, and Linux® platforms. Internet file access is simplified by the encrypted FTP server and the web-based file explorer, File Station. HTTPS, firewall, and IP auto-block support ensure secure file sharing over the Internet. **Cloud Station** allows users to sync files among multiple devices and platforms, including Windows PC, Mac, Linux, iOS and Android™ tablets or phones, effortlessly keeping everything up-to-date. **Cloud Sync** keeps your Dropbox, Google™ Drive and Baidu storage in sync with your personal DiskStation cloud files at home.

## Synology QuickConnect and Mobile Apps

For users whose network environment lacks a public IP address or the ability to configure port-forwarding, **QuickConnect** provides a relay service for you to access your DS115j from anywhere around the globe, even when it's hidden in a local area network. With a customizable QuickConnect ID, you can log in to your DS115j via DSM browser interface, Synology desktop utilities, and mobile apps.

Synology provides mobile apps that let you enjoy the full variety of your multimedia library even when you're on the go, allowing you to access the photo albums, music, and video collection stored at home on your DS115j. Available on iOS, Android, and Windows Phone platforms, **DS photo+**, **DS audio**, and **DS video** mobilize your Photo Station, Audio Station, and Video Station, potentially placing terabytes of content at your fingertips. On top of that, **DS download** makes it possible for you to manage and monitor your download tasks remotely while **DS file** allows you to manage the files stored on your DS115j.

## Easy Setup and Management

Combined with a quick start wizard, users can simultaneously tour the DSM operating system while setting it up for initial use. For users unfamiliar with complicated router configurations or those who simply want to save time, the Synology **EZ-Internet** Wizard simplifies the process of setting up access to your DS115j via Internet. **EZ-Internet** Wizard walks you through all network settings including firewall, port-forwarding, PPPoE setup, and DDNS registration. The **multi-tasking web interface** of DSM allows users to run multiple applications simultaneously on one tab browser and switch between them seamlessly.

## Runs on Synology DiskStation Manager (DSM)

**Synology DiskStation Manager (DSM)** is a web-based OS that provides private cloud services. It is designed to make your everyday life easier.

The built-in **Package Center** allows you to download and install packages designed specifically for your unique needs with just a few clicks.

The simple interface allows you to manage and configure storage capacity with minimal effort. It provides you with complete control of your personal cloud and lets you access it anywhere. Synology DSM will help you maximize productivity and get more out of your digital assets with minimal fuss.

## Energy-efficient with Cool and Quiet Design

Synology DS115j is designed with energy efficiency in mind. Not only does it provide a 60 X 60 mm fan and smart airflow to keep the system running cool 24/7, its noise dampening design makes it really quiet compared to PC counterparts. The hard drive hibernation feature can further reduce power consumption and operation cost.

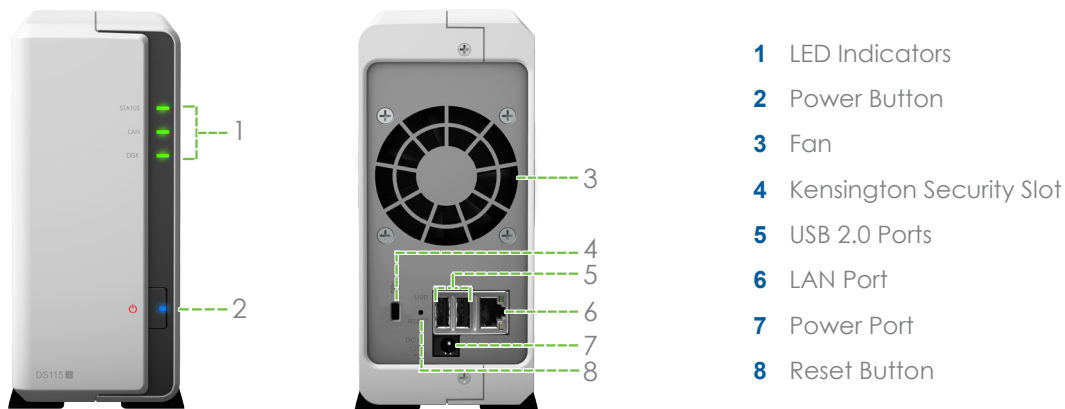

All Synology products are produced with RoHS compliant parts and packed with recyclable packing materials. Synology acknowledges its responsibility as a global citizen to continually work in reducing the environmental impact of every product produced.

### Anytime Availability

Access your DiskStation anywhere using Synology mobile apps.

## Technical Specifications

### Hardware

CPU	Marvell Armada 370 800MHz
Floating Point	Yes
Hardware Encryption Engine	Yes
Memory	256MB DDR3
Internal HDD/SSD	3.5" or 2.5" SATA(III) X 1 (hard drives not included)
Max Internal Capacity	6TB (1 X 6TB HDD) (The actual capacity will differ according to volume types)
External Ports	USB 2.0 X 2
Size (HxWxD) (mm)	166 X 71 X 224
Weight	0.71 kg
LAN	Gigabit X 1
Wireless Support (dongle)	Yes
AC Input Power Voltage	100V to 240V AC
Power Frequency	50 / 60Hz, Single Phase
Operating Temperature	5°C to 35°C (40°F to 95°F)
Storage Temperature	-20°C to 60°C (-5°F to 140°F)
Relative Humidity	5% to 95% RH

### General

Networking Protocols	CIFS, AFP, NFS, FTP, WebDAV, CalDAV, iSCSI, Telnet, SSH, SNMP, VPN (PPTP, OpenVPN™, L2TP)
File System	Internal: EXT4 External: EXT4, EXT3, FAT, NTFS, HFS+ (Read Only)
Storage Management	Max File System Size: 16TB, Max Internal Volumes #: 1, Max iSCSI Targets #: 10, Max iSCSI LUN#: 10, Supported RAID Type: Not supported
File Sharing Capability	Max User Accounts: 512, Max Groups: 128, Max Shared Folders: 256, Max Concurrent CIFS/AFP/FTP Connections: 64
Privilege	Windows Access Control List (ACL)
Directory Service	Windows AD Integration: Domain Users login via Samba (CIFS)/AFP/FTP/File Station, LDAP Integration
Security	FTP over SSL/TLS, IP Auto-Block, Firewall, Encrypted Network Backup over Rsync, HTTPS Connection
Utilities	Synology Assistant, Cloud Station, Evidence Integrity Authenticator
Supported Clients	Windows XP onward, Mac OS X 10.5 onward, Ubuntu 9.04 onward
Supported Browsers	Chrome™, Firefox®, Internet Explorer®: 8 onward, Safari® 5 onward, Safari (iOS 5 onward on iPad®), Chrome (Android 4.0 on tablets)
Language	English, Deutsch, Français, Italiano, Español, Dansk, Norsk, Svensk, Nederlands, Русский, Polski, Magyar, Português do Brasil, Português Europeu, Türkçe, Český, 日本語, 한국어, 繁體中文, 简体中文
